Data Collection Process

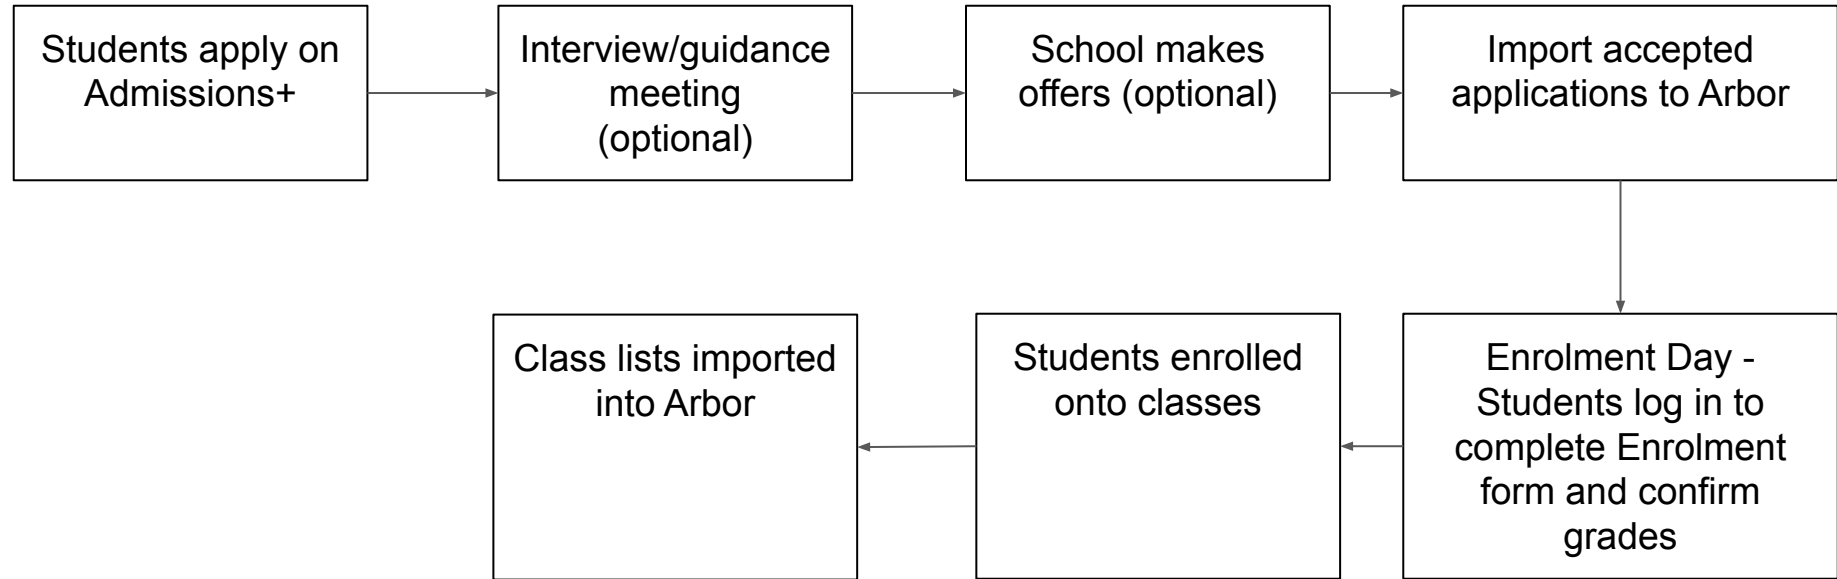

The process for collecting data using Admissions+ is illustrated below.

Please note, that the information/offers received from your Local Authority **should not** be imported into your school MIS System (e.g., SIMS, Bromcom or Arbor).

1. The parents and students should first be imported into Admissions+.
2. A welcome email sent to parents so they can complete the forms
3. Once parents have submitted the forms, you can transfer the data from Admissions+ to your school's MIS System

Sixth Form Admissions Process

Section 1: Arbor API Integration with Admissions+

Before you start to export data to your Arbor MIS from Admissions+ you need to:

1. A school admin will need to click this link to go to the Arbor Appicaa App approval page:

<https://developers-portal.arbor.sc/integration/authentication/2188>

NOTE: Before you can approve permissions Appicaa **must** first of all request permission to access your Arbor MIS. Please contact us for support.

2. Add your Arbor details onto your Admissions+ system:

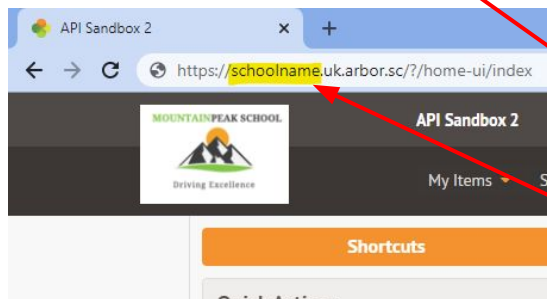

- Login to Admissions+ and click **Settings** → **School Settings** → **Integration**.

- Click on **Edit**.

- Select **Arbor** as the Integration platform then enter your **School ID**, this is your **school name** in your Arbor URL as highlighted in red:

<https://schoolname.uk.arbor.sc/?/home-ui/index>

- Click on **Save**.

Editing Integration Setting

Integration platform	Arbor
School ID	api-sandbox2

Save

Section 1: Arbor API Integration with Admissions+

1. Select **Verify Arbor Credentials/Permissions** to ensure your MIS credentials are valid.
2. Once the validation process is complete you should see this message.

MIS Credentials Validation

Credentials are not verified!

Verify Arbor Credentials/Permissions

MIS Credentials Validation

Arbor credentials are valid.

Import UDFs

Section 2: Important rules for exporting student applications

1. We don't change addresses for on-roll students and existing contacts.
2. We can add many personal email addresses to Arbor.
3. The home, mobile and work phone number is updated for existing contacts. A person can have have more than 1 home phone number.
4. We use the First Name and Last Name to find existing contacts so they can be matched during export. *If the returned contact has the same postcode they will be pre-selected in the list of contacts displayed.*

Section 3: Which fields are imported for students - *name, birthday, country of birth, gender and home address*

Property Name	File Comment	How this processed	Arbor Import
Legal Surname	60 characters max, 1 character min	Existing data replaced with new data from A+	Yes
Legal Forename	60 characters max, 1 character min	Existing data replaced with new data from A+	Yes
Preferred Surname	60 characters max, Default to Surname if missing or null	Existing data replaced with new data from A+	Yes
Preferred Forename	60 characters max, Default to Forename if missing or null	Existing data replaced with new data from A+	Yes
Middle Names	60 characters max, 1 character min	Existing data replaced with new data from A+	Yes
Date of Birth	YYYY-MM-DD	Existing data replaced with new data from A+	Yes
Country of Birth			Yes
Gender	Either M or F		Yes
Address 1			Yes
Address 2			Yes
Address 3			Yes
Town			Yes
Postcode			Yes

Section 3: Which fields are imported for students - *phone, email, ethnicity, nationality, language, religion, dietary, medical info, english proficiency, language ability and in care status*

Property Name	File Comment	How this processed	Arbor Import
Home (main) Telephone	20 characters max		Yes
Mobile Telephone	20 characters max		Yes

Home Language	Lookup		Yes
First Language	Lookup		Yes
Religion	Lookup		Yes
Dietary Needs	Can be Multiple needs. Lookup	Add new data from A+, except one that already exists on Arbor	Yes
Medical Conditions	Can be Multiple conditions. Lookup	Add new data from A+, except one that already exists on Arbor	Yes
English Proficiency	Lookup		Yes
Language Ability	Lookup		Yes
In Care Status			Yes

Section 3: Which fields are imported for students - *GP details, mode of travels, sen status, sen need, ULN, UPN and parental consents*

Property Name	File Comment	How this processed	Arbor Import
Agency Name	Name of Medical Practice		Yes
Agency House Number	Full address of Medical practice		Yes
Agency Street Description	Full address of Medical practice		Yes
Agency Town	Full address of Medical practice		Yes
Agency Postcode	Full address of Medical practice		Yes
Arbor Mode of Travels	Can be Multiple transport. Lookup	Add new data from A+, except one that already exists on Arbor	Yes
Sen Status	Can be Multiple status. Lookup	Same as above	Yes
Sen Need	Can be Multiple needs. Lookup	Same as above	Yes
ULN		Same as above	Yes
UPN		Same as above	Yes
Parental Consents	Can be Multiple consents. Lookup	Same as above	Yes

UDFS and Teaching Groups are also imported

Property Name	File Comment	How this processed	Arbor Import
User Defined Fields (UDFs)			Yes
Teaching Groups (timetable classes)			Yes

**Section 3: Which fields are imported for contacts -
*name, gender, parental responsibility, priority,
primary contact, authorised to collect, receive
parent communication and court order***

Property Name	File Comment	How this processed	Arbor Import
Title	Match on Description within 'Title' lookup		Yes
Relationship	Lookup Relation of parent to child		Yes
Legal Surname	60 characters max, 1 character min		Yes
Legal Forename	60 characters max, 1 character min		Yes
Gender	Either M or F		Yes
Responsibility	'T' for True or 'F' for False Legal parental responsibility		Yes
Contact Priority	1 – 10 This is the order of priority of a parent in terms of the school contacting home of the student		Yes
Primary Contact	Primary Guardian		Yes
Authorised to collect			Yes
Receive Parental Communication	Unsubscribed from comms.		Yes
Court Order			Yes

Section 3: Which fields are imported for contacts - *phone, email and home address*

Property Name	File Comment	How this processed	Arbor Import
Contact ID (for existing contacts)	Imported back from MIS System after integration		Yes
Home (main) Telephone	20 characters max		Yes
Mobile Telephone	20 characters max		Yes
Work Telephone	20 characters max		Yes
Home Email	60 characters max		Yes
Address 1			Yes
Address 2			Yes
Address 3			Yes
Town			Yes
Postcode			Yes
Country			Yes

Section 4: Arbor MIS Admissions+ Export

Step 1: Creating an Intake Season in Arbor

1. Click **Students** → **All Students** → **Applicants**
If you do not see Admission options in your MIS you should contact your MIS Support Provider for assistance.

2. Click **Add**

3. Add to your Intake Season the following:
Academic Year (the fields **Start date** and **End date** will auto complete) *If you are unable to select the required Academic Year you will need to add it first in your MIS by navigating to School → School Structures → Academic Years.*
Intake season name
Published admissions number (optional)
Target application number (optional)

The screenshot shows the 'Create Intake Season' form. Red boxes highlight the following fields: 'Academic Year' (set to 2021/2022), 'Intake season name' (set to Year 7 2021/22), 'Published admissions number' (set to 150), and 'Target application number' (set to 450). A red arrow points from the 'Academic Year' instruction in the list to the 'Academic Year' field. Another red arrow points from the 'Create Intake Season' instruction in the list to the 'Create Intake Season' button. The 'Cancel' button is also visible.

4. Click **Create Intake Season**

Step 2: Enrolling students to be exported

1. When your students are ready to be exported to your MIS they should be enrolled in Admissions+.
2. For Sixth Form students when they are put on their Courses their enrolment status will change to Enrolled.
3. The **Student Profile** and **Bulk Student Selection** methods can also be used to enrol Sixth Form students.

Step 3: Exporting students to Arbor MIS

1. Navigate to **Data** → **Export**.
2. Click on **Start an Export** at the top-right.
3. **Give your export a name** then select **Arbor**.
4. Click on **Next**.

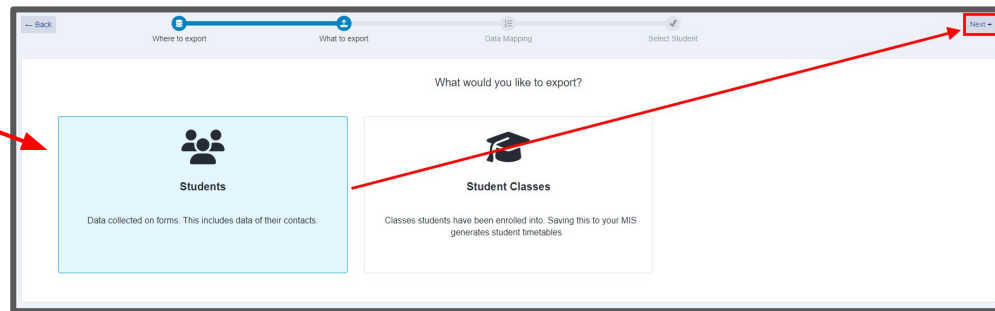

Start an Export

Step 3: Exporting students to Arbor MIS

1. Select **Students** then click **Next**.
2. On the next step you need to:
Select **Intake Season** e.g. *Reception 2021/22*
Select **Intake Group** e.g. *Intake Group 1*
Select **Applicant Bucket** e.g. *Applicant Bucket 1*
Select **Academic Level** e.g. *Reception 2021/2022*
There are additional Export Options available to select
3. The Data Mapping options will be pre-selected and now include **User Defined Fields**.
4. Click on **Next**.

Export Admissions+ student as a new Arbor student.
This keeps information from both Admissions+ student and Arbor student as separate records.

Skip this student for now and decide later.

11 / 12 Resolved

[Confirm & Next](#)

[Next](#)

Step 3: Exporting students to Arbor MIS

1. On the Arbor Contact Mapping step existing Arbor contacts will be displayed if they match contacts in Admissions+. **Select *New Contact*** if they are not an existing contact in your MIS or ***Skip Contact*** if they should not be synced. *Contacts are matched using the following rules:*
 1. The system looks through existing Arbor contacts, and finds any one who matches the name, title, email and postcode of the person on Admissions+
 2. Matching people are listed as 'Potential Matches'
2. Click **Next**.

The screenshot displays the 'ARBOR CONTACT MAPPING' interface. At the top, a header reads 'Potential Matches'. Below this, a message states: 'Admissions+ has identified several individuals in Arbor that might be a match for the people you are trying to export. Please review them below and for each potential match, please indicate which individual should be matched.' The interface is divided into two main columns: 'A+ Contact' and 'Arbor Contact'. On the left, a progress bar shows '4 / 4' and '100%'. The 'A+ Contact' column lists details for '(#1) Mrs Lily Plaine', including phone number '0888888888', address 'HYDE Cheshire, SK14 9DT', and title 'Carer of Happy Test Br1'. The 'Arbor Contact' column shows two potential matches for 'Mrs Lily Plaine'. The first match has phone number '0888888888', address 'HYDE SK14 9DT', and title 'Carer of Happy Test Br1', with a green progress bar. The second match has phone number '0333333333', email 'pl@applicaa.com', and title 'Doctor of Happy Br2', with an orange progress bar. At the bottom, there are two radio buttons: 'New Contact' and 'Skip Contact'. Red arrows from the text instructions point to the 'Next' button, the 'Potential Matches' header, the first match entry, and the 'New Contact' and 'Skip Contact' buttons.

Match To - links the Admissions+ contact to an existing Arbor contact, saves the Arbor Contact Id to Admissions+ and updates the available data from Admissions+ to the Arbor contact (see the data table for import rules)

New Contact - creates a new person in Arbor

Skip Contact - does nothing, the contact is not imported

Step 4: Export Report

1. Once the export process has finished click on the report to check your students exported successfully.
2. If there were any issues with the export you will see the reason in the **Arbor Notice** column for each student.

In the example below the student exported successfully with no error.

Export Finished!

1 students were processed!

Users

Students, parents and enquiries

import parent sample.csv
import student sample.csv

Student grades or Subject Options
The following can only be imported for users that already exist

Predicted Grades
or
Achieved Grades

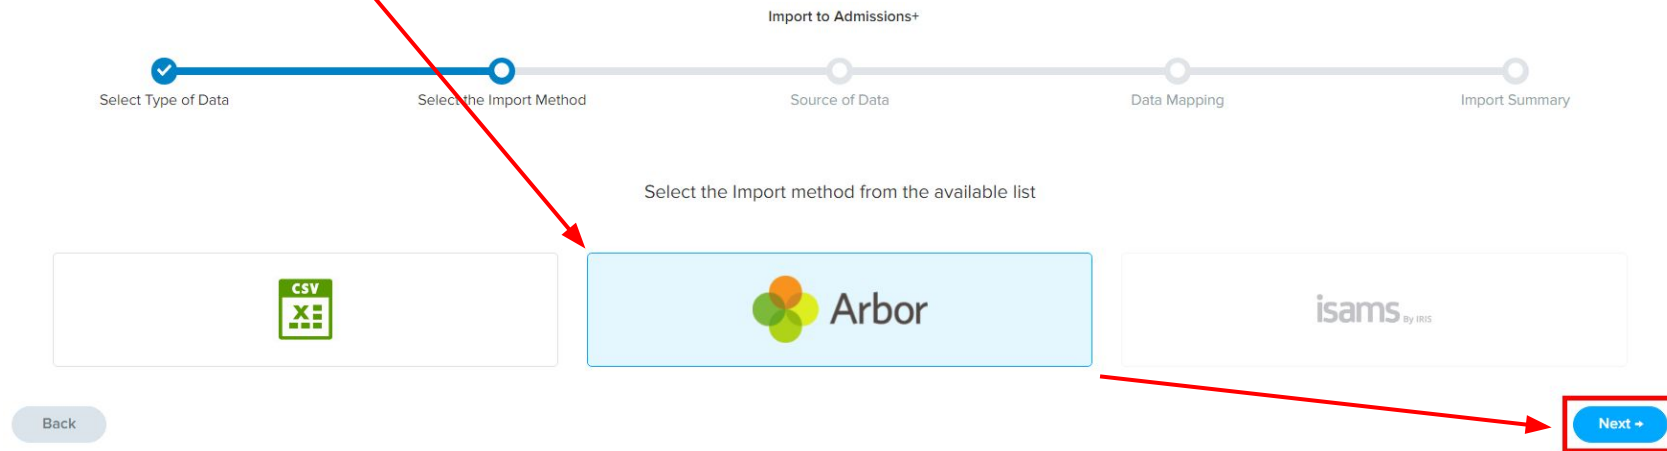

Student Subject Options

Other imports

Time Table Subject Options

Step 1: Importing courses

1. Select **Arbor**.
2. Click on **Next**.

Step 1: Importing courses

1. On the **Data Mapping** step click **Next**.
The Arbor and Admissions+ courses properties will already be mapped. If anything hasn't been mapped they can manually be mapped to a property.
2. On the **Import Summary** step you can filter students using the **Academic Level**, **Academic Year**, **Subject** drop down menus and also search for a course in **Class Name**.

FILTER COURSES

Class Name	Academic Level	Academic Year	Subject
<input type="text" value="Maths"/>	<input type="text" value="Year 12"/>	<input type="text" value="2022/2023"/>	<input type="text" value="Mathematics"/>

3. Click on **Select all** to import all courses into Admissions+.
4. Click **Next to Import** your courses.

Next

Select all

Step 2: Import Report

1. Once the import process has finished click on **View successful imports >>**
2. On the next screen click on the **Pen** icon to edit a Course as shown in the example below.

Import Successful!

Congratulations,

1 record(s) were imported!

0 record(s) were updated!
